Validate a custom domain@

This article applies to:

After verifying your domain name, you can customize the "from address" of an email to be anything@yourdomain.com.

1. Click on your profile and choose Settings

2. Scroll down to the **Domains** section

ଜ	Lead Score Settings Enable or disable lead scoring and setup how lead scores are calculated
Ē	Domains Customize your landing pages and improve email inbox delivery by auth
<:	API Manage and access your integrations with 3rd party providers.

3. In the Email domains section, click the **Set up email domain button**

4. Once your domain has been verified, you can choose Customize email address when setting up a broadcast or a campaign email.

5. Select your domain from the list of verified domains and fill out**Display name** and **Email username**
