

Web Form Engagement Tracker Report

Last Modified on 09/25/2018 10:59 am MST

The web form activity summary shows detailed activity information about your online web forms. It tells you how many submissions came through a specific web form within a date range. Click the **New Search** button and you can filter by *web form name* and a *form submission date range*. Note that this report defaults to the last 30 days.
