

Currency Settings

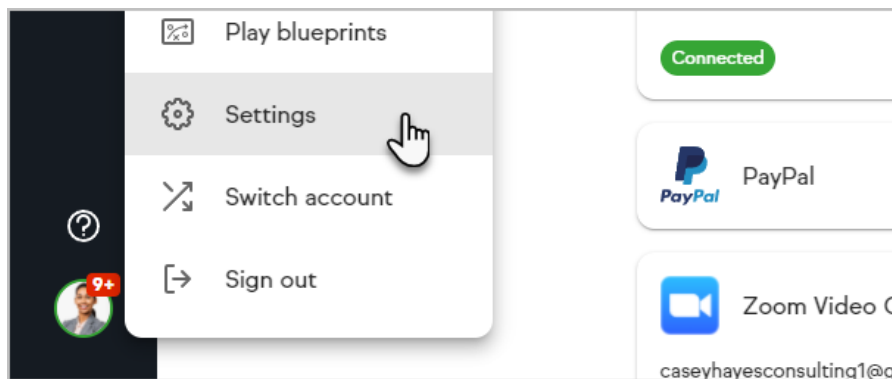

This article applies to:

[Pro](#)

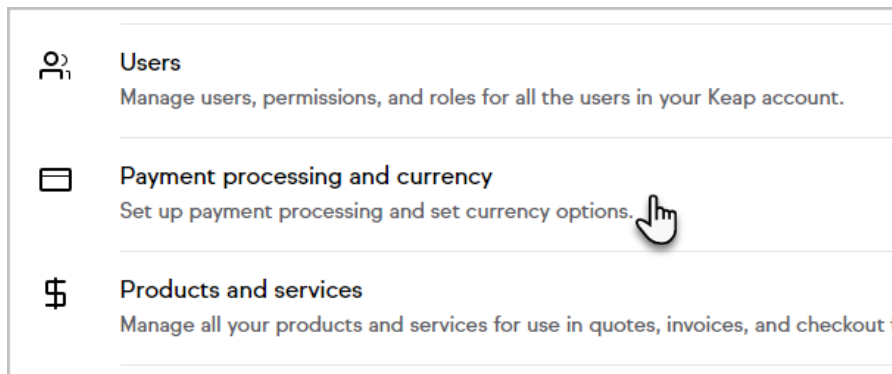

[Max](#)

Use the billing currency setting to select the currency format and symbol that your customers see. When your customer makes a payment, the currency format and symbol will match the currency they are being charged in.

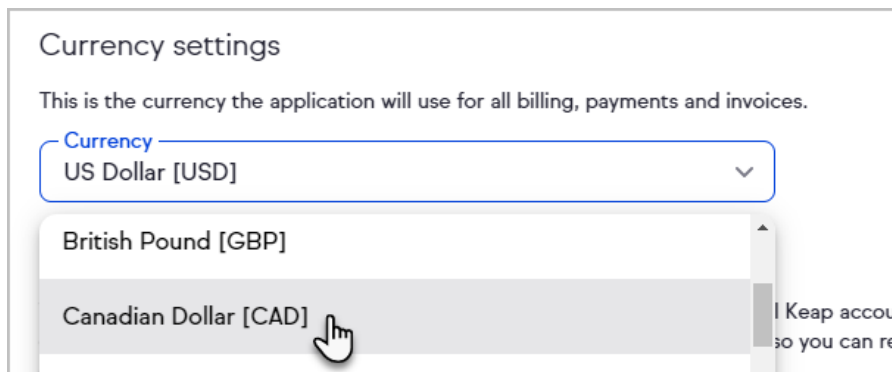

1. Click on your user avatar and choose **Settings**

2. Click **Payment processing and currency**

3. Select the desired currency from the drop down

4. Your new default currency will be applied to all of your billing, payments and invoices
