# February updates 2019 | Keap

## Hosted Contact Us Form

Easily capture leads with a contact form. Create a contact form in just a couple of minutes using Keap's guided template. Share the form wherever you wish you capture contact information, such as your website, Facebook page, or Instagram account. For more information, **click here**

## Microsoft Email Sync

Microsoft Email Sync connects Keap with your existing Outlook account. Incoming and outgoing emails exchanged with your Keap contacts will automatically save to their contact record, so you can quickly search and view the history of all your customer interactions. For more information, **click here**

## Duplicate contact check on single contact add

Get notified when you add a single contact that has the same email address as an existing contact. For more information, **click here**
