

Custom Dashboard

This article applies to:

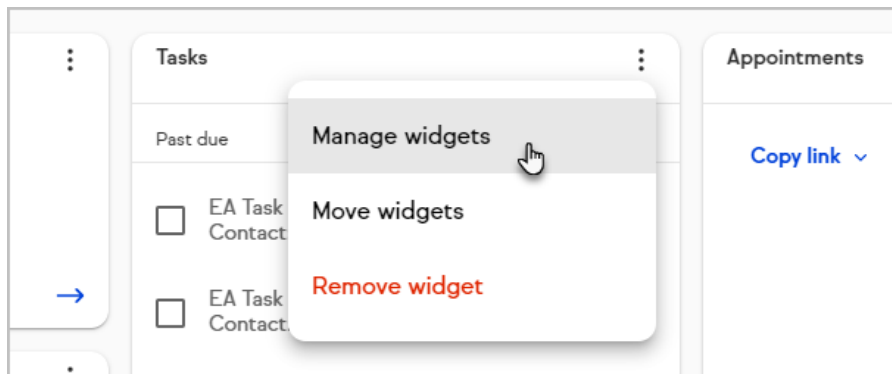

Keap includes the ability to customize your dashboard so you can see the information that's relevant to your business and remove the rest. Each user in Keap can customize their own dashboard to get exactly the information they need.

Edit dashboard widgets

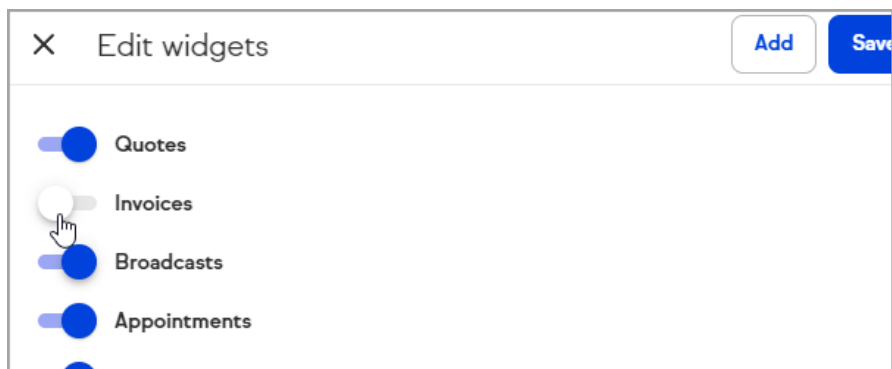

1. Open the menu on any widget

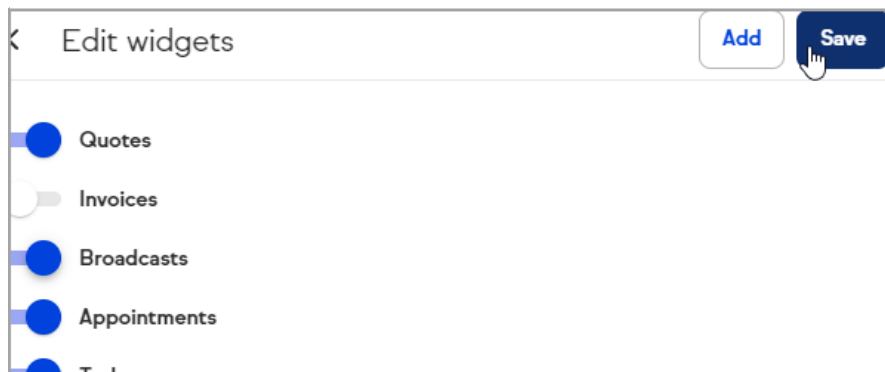

2. Click **Manage widgets**

3. Toggle individual widgets on or off

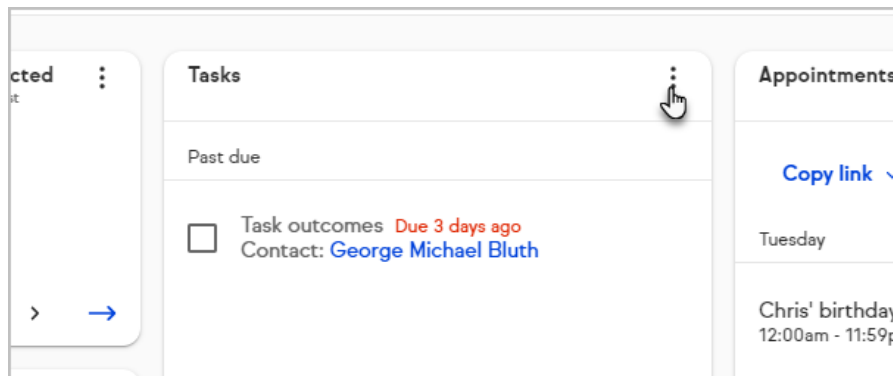

4. Click **Save**

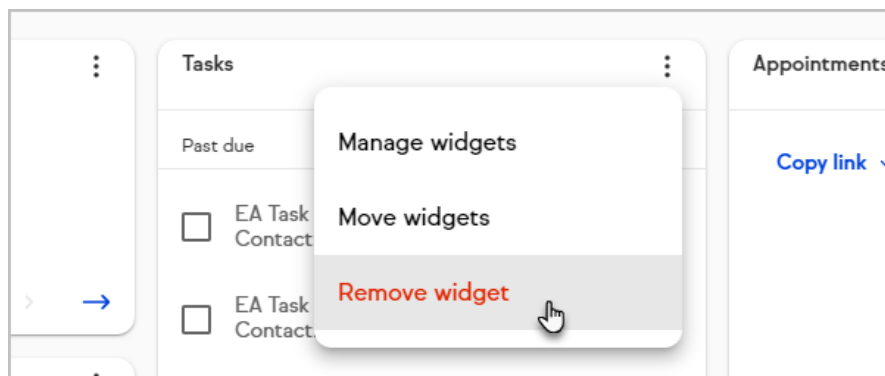

Remove dashboard widgets

Remove widgets you don't use to reduce clutter. The only widget that cannot be removed is the **Get organized** widget.

1. Open the overflow menu on any widget

2. Click **Remove widget**

Available Widgets
