

Mark a message as unread

This article applies to:

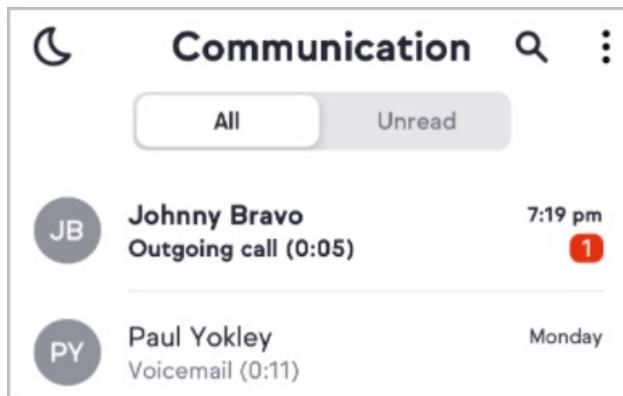

Mark a conversation as unread to remind yourself to follow up later. There are two ways to mark a conversation as unread: swipe the conversation or mark a specific message.

Swipe to mark as unread

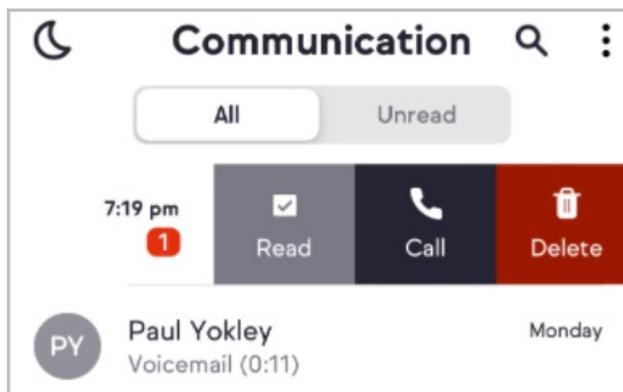

1. Open the **Communications** tab of your Keap app
2. Swipe the conversation from right to left
3. Tap **Unread**

4. The conversation will now have a badge indicating one unread item

5. You can use the same swipe right to left gesture to mark unread messages as read

Mark a message as unread

Note: Only messages can be marked as unread. The option is not available for calls.

1. Open the Communication tab of your Keap app
2. Open a conversation thread
3. Tap on a message
4. Tap **Mark as unread**
5. An unread indicator is added to your conversation thread

View all unread communications

See where you need to follow up with the **Unread** tab in your Communication.
