Improvements to contact exports

We've made changes to contact exports to ensure you'll experience better performance. For large exports (more than 1,000 contacts), a secure download link will be emailed as soon as the file is ready, requiring the recipient to be able to log in to retrieve the data. From now on, take a coffee break if you want to. Not just because you're waiting on your data to catch up. [Learn more.](#)

Security question requirement

As of 1/7, customers without security questions will be prompted to create them the next time they log in to their Keap account. This helps ensure that any customers who lose access to their account are able to reestablish it.

Bug fixes

- In Appointments, the next and previous month buttons in the calendar weren't clickable when there wasn't any appointment availability for an extended period of time.
-
