Appointments update: Customizable reminders in Easy Automations

You can now use Easy Automations to customize the reminders sent out for your appointments. Tailor the messages sent to your clients, change when reminders are sent, or delete them altogether. If you don't want to make any changes, your reminders will continue to be sent out 24 hours and 1 hour prior to your appointments. [Learn more](#).

Bug fixes

- For appointment invitees visiting an Appointments booking page, after selecting a day on the calendar, and then selecting another day, any previously selected days could not be reselected.
-
