Pipeline update: Create powerful Easy Automations based on Pipeline activity

You can now trigger and stop Easy Automations when a deal is moved into or out of a Pipeline stage. This makes it easy to nudge a prospect along if they aren't progressing through your sales process fast enough. Plus, you can even automate your follow up right from the Pipeline page. Learn more.

Bug fixes

- Keap public forms would not save custom checkbox field selections to the contact record when the form was submitted. (Known Issue 2469931)
