There are few plays as impactful as the re-engagement offer. This play serves as a powerful convert clients play that can help win the hearts and minds of your prospects, regardless of where they are in the funnel. The lynchpin here is time; how long has the prospect been in your ecosystem? When was the last touch point? Fortunately, your Keap app contains much of this powerful data that will help you execute this play to perfection and close more leads.

Once you get a prospect into your funnel it is vital that you utilize the power of automation to keep them nurtured and alive.
