## Money update: Proactively offer upsells on Checkout Forms

For Max customers, your Checkout Forms now include an upsell option to maximize the value of each order you receive. When creating a Checkout Form, select a product to include as an upsell and your customers will be able to add it to their cart with one click. Learn more. [Learn more.](#)

## Money update: Recurring payments in Lite

Now our Lite customers can get paid on time, every time. Say goodbye to the hassle of remembering to bill your clients. You can now set up recurring payments, determine payment frequency, add custom start and end dates, and pause payments when necessary. Recurring payments can be accessed on the Money page or the Money tab in the contact record. [Learn more.](#)

## Bug fixes

- When setting up or editing some integrations, clicking the Cancel button did not exit the menu.
  - Some scheduled Keap Appointments were not displaying in contacts' activity feeds.
-
