

March 24, 2022 | Keap®

This article applies to:

Apply tags to links (New Email Builder)

You are now able to apply tags to links in the new email builder. This will allow you to apply tags to contacts that click those links. [Learn more](#)

Tags settings updates

Tags can now be sorted by Name and Category. There is added sorting by name by Z-A and added sorting by category Z-A. The description and category are now viewable in the side panel once a tag is opened. [Learn more](#)

Keap Mobile: Updated settings

Users will now have one place to see all their Keap Business Line Settings in the Mobile app. Keap Business Line users can now quickly find key functionality to manage and update all relevant settings. [Learn more](#)

Bug fixes

- Embedding a landing page that redirected to a website caused the redirect to show a "failed to connect" page
-
