Social login with Google

This article applies to:

You can now sign in to your Keap account(s) using your Google account. Note that the email address that you currently use to sign in must be a Gmail address in order to sign in with Google. You can change your sign in credentials [here](#1).

1. Choose **Log in with Google**

   ![Log in with Google](#)

2. If you do not have an authenticated Google Account on your device, you’ll be prompted to sign in to your Google account by entering your email or phone.

   ![Sign in with Google](#)

3. Enter your password

   ![Enter password](#)

4. If prompted, follow the instructions for 2-step verification
5. Select the desired Google account

6. You'll now be signed in to your Keap accounts page
