View and edit contact groups

We've moved and updated the "View all groups" button in Contact Groups. It's now located at the top of the Group list and has been renamed to "View/hide groups." We hope this provides an easier and more intuitive experience when working with your contact groups. [Learn more](#)

Bug fixes

- When trying to use tags in the To field with the new email builder in the email broadcast, the Tags were not displaying correctly causing a timeout.
-
